

Adventures in Microbiology

A Celebration of the Career of Jeffrey M. Becker

A Symposium at The University of Tennessee, Knoxville
Science and Engineering Building 307
June 16, 2008 (8:30am to 5:30pm)

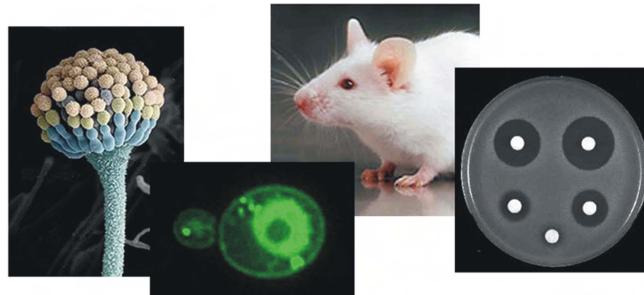

Speakers

Collaborators and Colleagues

Keynote: Meir Wilchek (Rehovot) - The Biotin-Avidin System
Hannelore Daniel (Munich) - Peptide Transport
Mark Dumont (Rochester) - Genetics and Biophysics of Receptors
Yigal Koltin (Tel Aviv) - A Biotech Adventure
Fred Naider (Staten Island) - A 35 Year Collaboration

Former Students

Munira Basrai (NIH) - Chromosome Instability in Yeast
Guy Caldwell (U. Alabama) - The Worm and Brain Disease
Mark Lubkowitz (St. Michaels College) - Peptides and Plants
Stevan Marcus (U. Alabama) - Fission Yeast Cell Division
